Outline

Recruitment

- Beverton-Holt
- Ricker

Growth

- von Bertalanffy

Beverton-Holt recruitment

$$\hat{R} = R_{\max} \frac{S}{S + S_{50}} \tag{1}$$

$$\hat{R} = \frac{S}{a + bS} \tag{2}$$

$$\hat{R} = \frac{aS}{1 + bS} \tag{3}$$

$$\hat{R} = \frac{aS}{1 + S/b} \tag{4}$$

Ricker recruitment

$$(1) \qquad \hat{R} = R_{\max} \times \frac{S}{S_{\max}} \times exp\left(1 - \frac{S}{S_{\max}}\right)$$

$$(2) \qquad \hat{R} = aSe^{-bS}$$

von Bertalanffy growth

$$\hat{L}_a = L_\infty \left(1 - e^{-K(a-t0)}\right)$$
